Why private labelling?

Individuality

With our service, you have the opportunity to strengthen your brand by offering your customers unique and customised ice cream creations.

Immerse yourself in the world of digitalisation with our innovative approach to integrating NFTs into our packaging.

With the printed QR code, you can also transport exclusive digital content such as vouchers, invitations, promotions, VIP events and much more.

With technology, the ice cream experience becomes not only a culinary delight, but also a digital experience for the customer.

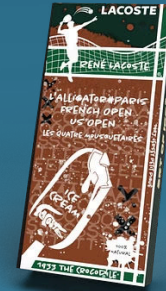

Flexibility

Our private label service offers you extensive customisation options.

From the choice of flavours, colour of the glaze and, of course, the highlight, the design of the packaging, we can work together to create the perfect offer for your target group.

We love being creative for our customers and partners!

Exclusivity

Experience luxury in its purest form with our range of gold-plated ice cream products.

Inspired by our exclusive 24K VAE Edition, we offer you the option of a sophisticated gold plating with real 24 carat gold leaf.

Perfect for trade shows, product launches and exclusive events to take your brand to the next level.

Quality promise

At Art of Ice, we prioritise quality and craftsmanship.

Our products are produced under strict quality standards in Austria to offer you a first-class and enjoyable experience.

You can choose from over 30 different ice cream flavours and we are happy to work with you to create your own individual brand flavour.

Prices and conditions

Our prices are based on the individual requirements of our customers and may vary.

Minimum order quantity 5000 pieces for private label orders. For higher quantities, we offer graduated prices that can be agreed individually.

We will be happy to provide you with a customised offer.
